Dissertation

Module Code: SCH516

Regenerative Economics 2020-2021

Module Leader: Jonathan Dawson
Welcome and Introduction

SCH516: Dissertation

This module provides students with the opportunity to develop and demonstrate their capacity for independent study in the application of research skills to a topic appropriate to the degree. It will include a research methods workshop, including sessions on action research, phenomenology and a selection of qualitative and quantitative research methods. Students will be supported to identify research topics and to select appropriate research orientations and methodologies.
Module Aims

This module aims to:
1. Introduce students to a range of research methodologies in the social sciences;
2. Provide an opportunity for students to pursue in depth a topic of their own interest;
3. Extend students’ powers of critical evaluation and original thought;
4. Bring reflective and reflexive awareness to the enquiry

Assessed Learning Outcomes

- identify a suitable research topic, formulate research questions and develop a research design; make use of scholarly reviews and primary resources appropriate to the discipline
- plan and execute an investigation making use of an appropriate methodology
- prepare a clear, well presented report or project (such as video documentary) which communicates the ideas, problems, solutions and results in an accessible manner

Total 600 (NB: 1 credit = 10 hours or learning; 10 credits = 100 hours, etc)

Students are expected to take full responsibility for their learning, attend tutorials with their supervisor, read appropriate indicated readings, and work on set exercises (formative and summative assessment).

Please ensure that you are engaging with the content and learning activities relating to this module.

Hand in Process and Submission of Assessed Work
All assessment assignments must be submitted via an electronic ‘drop box’ on the Virtual Learning Environment to meet the date and time as published in your Teaching, Learning and Assessment Handbook. Where CDs, DVDs or other project materials are submitted as part of the project, these should, where possible, be submitted in triplicate, enabling both of the main markers and the External Examiner to receive copies. These must be presented by the specified date and time to the postgraduate administration office. In the event the Postgraduate administration team are unavailable a member of faculty will be nominated to accept submissions in advance of each deadline date.

Turnitin
Turnitin (http://www.turnitinuk.com/) is an Internet-based ‘originality checking tool’ which allows documents to be compared with content on the Internet, in journals and in an archive of previously submitted works. It can help to detect unintentional or deliberate plagiarism.

It is a formative tool that makes it easy for students to review their citations and referencing as an aid to learning good academic practice. Turnitin produces an ‘originality report’ which may be necessary to be attached to your coursework and your tutors will advise you on how to access and use Turnitin where required for your studies. To learn more about Turnitin go to: https://help.turnitin.com/Home.htm

Late Work/Extenuating Circumstances

If your participation in an examination or assessment has been affected by an extenuating circumstance, then you can ask the University to take this into consideration. You can submit a claim for extenuating circumstances to cover late submission of work, non-submission of work or non-attendance at a time specific assessment, such as an examination, test presentation or performance, or field class.

Information regarding the Extenuating Circumstances policy and how and where to submit Extenuating Circumstance Claims are available here: https://www.plymouth.ac.uk/student-life/your-studies/essential-information/exams/exam-rules-and-regulations/extenuating-circumstances

Where there are no valid extenuating circumstances, the following regulations will automatically apply:

- Work submitted after the deadline date/time but within 24 hours of it, will be capped at the pass mark 50%
- Work submitted 24 hours after the deadline will receive a mark of zero.

Students must notify the programme & module leader of any extenuating circumstances as soon as possible.
Sources of Guidance and Support

In the intimate context of Schumacher College where class sizes are small, opportunities for conversations and informal tutorials with staff happen on a daily basis both within and beyond the classroom. In addition, a formal 45-minute tutorial is provided in the study week at the end of each module.

Referencing Protocols and Academic Offences

When writing a report or an essay you are expected to fully reference the materials you have used. The report or essay should be your own work, in your own words.

Plagiarism is an offence under the University regulations on examination and assessment offences. It is important that you familiarise yourself with what constitutes plagiarism, and academic offences. Further information can be found:
